# ZAKARIA EL GHAZALI

Junior Full Stack Web Developer

## ABOUT ME

Dedicated to becoming a full-stack web developer by immersing myself in comprehensive learning resources and practical projects. By gaining proficiency in both front-end and back-end development, I aim to create innovative web applications.

## PROJECTS

### Urban Goodiz: E-commerce Web App (Bootcamp Conclusion)

Dec 2023

- Collaborated within a 5-person team for a concluding bootcamp project.
- Led backend development using the MERN stack (MongoDB, Express.js, React, Node.js) for a robust e-commerce web application.
- Focused on end-to-end product functionality, spanning from backend architecture to frontend integration.
- Applied a team-oriented approach to successfully implement and deliver the project.

### EduHub: Bachelor's Final Year Project

July 2023

- Collaborated with a friend on a final bachelor's project.
- Developed EduHub, a web app aiding students and teachers.
- Technologies: HTML, CSS, JS, PHP; hosted on XAMPP server.
- Enabled user registration and data saving across multiple integrated applications.

## EXPERIENCE

### Full-stack Developer | MERN

July 2023

ARK-X Talent Factory · Full-time

A MERN Stack Bootcamp, is an intensive and comprehensive training program designed to equip aspiring developers with the skills and knowledge necessary to build modern web applications using the MERN stack.

### IT Education & Administrative Support Intern

Feb - June 2023

BADR HIGH SCHOOL · Part-time

- Developed and delivered high school IT lessons
- Ensured student comprehension through effective teaching methods
- Managed student records
- Improved filing systems for enhanced organization
- Engaged in cross-functional projects
